

ACCORD

Ideal solution for high-profile architectural designs. Original design and unique colour will emphasise individuality and beauty of Your roof adding the final touch on a perfect aesthetical look of Your house.

Why bitumen tiles by GARGŽDŲ MIDA?

- Minimal amount of waste and easy installation;
- Perfect noise absorption qualities;
- Wide range of colours and designs– more than 20 colours in four different styles;
- Long life span – 20 to 25 years;
- Special treatment of mineral surfacing granules (pigment burned-in into the surface of granules) ensures long durability of the colour and high resistance of the tiles to weather conditions;
- Products comply with harmonized European standard EN 544;
- Quality management system ISO 9001 certificate and multi-level system of quality control of manufactured products;
