

TANGO SUPER

Are You looking for the state-of-the-art roof solution?

"Tango" cosy look and unconventional design resemble sophisticated lines of the age of modernism that was accompanied by tango tunes...

Why bitumen tiles by GARGŽDŲ MIDA?

- Minimal amount of waste and easy installation;
- Perfect noise absorption qualities;
- Wide range of colours and designs-- more than 20 colours in four different styles;
- Long life span -- 20 to 25 years;
- Special treatment of mineral surfacing granules (pigment burned-in into the surface of granules) ensures long durability of the colour and high resistance of the tiles to weather conditions;
- Products comply with harmonized European standard EN 544;
- Quality management system ISO 9001 certificate and multi-level system of quality control of manufactured products;

Oxidized bitumen tiles
